

# Our Big Dream for The Future

Create a brighter, freer future for children and adults with disabilities by funding ground-breaking and life-changing research.

## Our Big Dreams for The Future Fund

**€400,000**

Our **Big Dreams** campaign is seeking to raise €400,000 to inspire and empower vital, life-changing research in four key areas over the next three years.

**Big Dreams** research into ways to improve mobility and function in disability.

**Big Dreams** research on assistive technologies to improve communication, activity, education, and employment.

**Big Dreams** research to examine and improve human rights, community involvement, and engagement in society for those who are disabled.

**Big Dreams** research to improve the lives of those ageing with disability.

## The future you can inspire

Daniel's cerebral palsy means that although he can walk, he sometimes uses a wheelchair or walking aid. Thanks to the assessment and research conducted in CRC's Gait Laboratory, Daniel will shortly undergo minor surgery which will help him to achieve a very important dream - on the day of his communion Daniel will play on a bouncy castle. That's a dream worth believing in.

**That's our Big Dream.**

**Join us!**

# BIG Dreams

Inspiring a brighter future for children and adults with disabilities

## The difference your gift will make is incredible

At the centre of CRC's vast range of services is our focus on research. It is in specialist departments like our Gait Laboratory that you will find our future. It is there that our state-of-the-art imaging machine analyses how a person walks and enables specialised walking aids to dramatically improve the life of so many with complex mobility needs. In our Alternative Communication services, our team of experts are constantly searching for new and improved ways for non-verbal children to communicate.

**These are the Biggest Dreams of all.**

To help make a **Big Dream** come true contact Ziva at **00 353 1 854 2432** or email **znewman@crc.ie**

# BIG Dreams

Inspiring a brighter future for children and adults with disabilities

“ Dan’s **Big Dream** is to work in a play centre – the soft climbing area to be exact.”

**Ailbhe, Daniel’s mum**

## Are you a Big Dreamer?

Every gift, no matter how big or small, makes an impact on our research programme. **But if you make an inspirational donation of over €75,000** you can help fund an entire postdoctoral research programme. Your gift can move us all one step closer to an answer – and one step closer to changing the world. There is no bigger dream than that. Just contact our **Big Dreams** team today.
